## WELCOME MESSAGE

Dear Colleagues,

It is with great enthusiasm that we welcome you to the **5th Emirates Pediatric Bone Marrow Transplant and Gene Therapy Congress (EPBMT 2026)**, taking place on **26–27 September 2026** at **Sofitel Abu Dhabi Corniche, Abu Dhabi, UAE**, with the **Pediatric Bone Marrow Transplant Course scheduled on 28 September 2026**.

As the field of pediatric transplantation and gene therapy continues to evolve rapidly, EPBMT 2026 serves as a vital platform for advancing scientific dialogue, strengthening multidisciplinary collaboration, and shaping the future of care for children with complex hematological and immunological disorders. This congress aims to unite clinicians, researchers, scientists, nurses, pharmacists, and allied healthcare professionals from across the region and around the world to exchange expertise and explore the latest breakthroughs transforming patient outcomes.

This year, we are proud to introduce the Pediatric BMT Course 2026, a specialized educational initiative designed to support the next generation of pediatric transplant professionals. Led by an esteemed international faculty from the USA, UK, Italy, Germany, Jordan, Saudi Arabia, and India, the course will provide participants with valuable clinical insights, practical knowledge, and interactive learning experiences focused on the foundations and advancements of pediatric bone marrow transplantation.

The congress scientific program has been thoughtfully developed to address emerging trends, innovative therapies, challenging clinical cases, and evolving standards in HSCT, gene therapy, and cellular therapies. Through keynote lectures, expert panel discussions, abstract presentations, and scientific exchange, EPBMT 2026 will continue to foster innovation, collaboration, and excellence in pediatric healthcare.

Beyond the scientific sessions, the congress offers an opportunity to build meaningful professional connections and encourage regional and international partnerships that contribute to the advancement of pediatric transplant medicine.

We are honored to host you in Abu Dhabi and look forward to an inspiring and impactful gathering with colleagues dedicated to improving the lives of children worldwide.

See you in Abu Dhabi!

## LEARNING OBJECTIVES

- Increase knowledge in bone marrow transplant in pediatrics.
- Deepen understanding of advanced topics in bone marrow transplant.
- Address the unmet need for greater understanding of and the screening for long-term complications in the growing population of survivors of transplantation for nonmalignant disorders
- Improve care of pediatric BMT patients
- Provide the tools for a successful bone marrow transplant and immune effector cellular therapy in an educational setting.
- Provide exposure and training in BMT
- Discuss updates in research in the field of BMT, and/or cellular therapy.
- Allow the opportunity to improve medical knowledge, and overall subspecialty competence related to the areas of bone marrow transplant.

## HIGHLIGHTED TOPICS

- BMT for Non-Malignant conditions such as Hemoglobinopathies, Primary Immune Deficiency, Inherited Bone Marrow Syndromes, and metabolic conditions.
- BMT for malignant conditions.
- Autologous BMT in children.
- Pre-transplantation workup.
- Management of complications during BMT.
- Supportive care in BMT.
- Infections during BMT, monitoring, prevention, and treatment.
- Stem cell manipulations in pediatric BMT.
- Late Effects after Pediatric Hematopoietic Cell Transplantation
- And many more

## KEY FEATURES

- Full two-day program.
- Presentations by renowned expert speakers
- Interactive Sessions
- Connecting scientific community
- World class exhibits.
- Pre-Conference Pediatric BMT Course

## WHY YOU SHOULD ATTEND?

- Meeting renowned experts from around the world
- Networking and developing new partnerships
- Learning and sharing best practices
- Get introduced to success stories & achievements
- Learning novel concepts & practices in Pediatric Bone Marrow Transplant

## WHO SHOULD ATTEND?

This activity is designed to meet the needs of:

- Pediatric oncologist.
- Pediatric hematologist.
- Pediatric BMT physicians.
- Pediatric infectious disease physician.
- Pediatric gastroenterologist.
- Pediatric other Subspecialists
- Pediatric Trainees
- Pediatric hematology, oncology, and BMT residents & Fellows.
- Stem cell lab professionals.
- Specialist Nurses
- Psycho-social counsellors.

# Pediatric Bone Marrow Transplant Course 2026

28 SEPTEMBER 2026 | Sofitel Abu Dhabi Corniche, UAE

The **Pediatric BMT Course 2026** is a comprehensive and interactive educational program designed for trainees and early-career healthcare professionals specializing in **Paediatric Bone Marrow Transplantation**. The course offers a unique opportunity to engage with renowned international faculty from leading institutions across the **USA, UK, Italy, Germany, Jordan, Saudi Arabia, and India**.

## Who Should Attend

- Pediatric BMT Trainees
- Pediatric Hematology/Oncology Fellows
- Pediatric Clinicians involved in Transplant Medicine

## Course Highlights & Topics

1. Introduction to Bone Marrow Transplantation, Cell & Gene Therapy
2. Histocompatibility (HLA) Typing and Its Clinical Relevance
3. Stem Cell Harvest and Cryopreservation
4. Autologous HSCT (HDC + ASCR): Background, Emerging Indications, and Practical Considerations
5. Donor Selection for Paediatric HSCT: MRD, MUD, and Haploidentical Donors
6. Practical Aspects of Conditioning Chemotherapy and Serotherapy
7. Graft Manipulation Techniques
8. GvHD Prophylaxis Strategies
9. Management of Acute GvHD: An Algorithmic Approach
10. Management of Chronic GvHD
11. Viral Infections in HSCT: Diagnosis and Management
12. Endothelial Complications: Risk Prediction and Prophylaxis
13. Principles of Haploidentical Bone Marrow Transplantation
14. Cell & Gene Therapy: Current Landscape and Future Directions

## TESTIMONIALS

**Dr. Azza Ayad** – Pediatric Hematology Oncology Consultant, Cairo, Egypt

The conference provided an exceptional platform to engage with leading experts in pediatric BMT and gene therapy. The sessions were informative, and the interactive discussions allowed for a practical understanding of the latest advances. I found the event highly organized and professionally executed. It was a valuable learning experience for my practice.

---

**Dr. Tayseer Alsaad** – Pediatric Oncologist, Sidra Medicine, Doha, Qatar

This congress was extremely well-structured, offering insights into cutting-edge research and clinical applications. The speakers were highly knowledgeable, and the sessions encouraged meaningful discussions. It has strengthened my understanding and approach in pediatric oncology. I look forward to participating in future editions.

---

**Dr. Shnrwe Azim** – Specialist Nurse, Hiwa Cancer Hospital, Sulaymaneyah, Iraq

This was my first experience attending a BMT-focused international conference, and it exceeded all expectations. The lectures were insightful, and the hands-on sessions were particularly helpful. I feel inspired and motivated to implement new techniques in my clinical practice. The organizers did an excellent job.

---

**Dr. Mohamed Abd Elwaged Kamal** – Pediatric Oncology Specialist, Cairo, Egypt

An outstanding congress with excellent speakers. The ECP in Low Weight Children session was highly insightful, offering practical knowledge and expert discussions. A truly well-organized and educational event.

**Dr. Muhanad Alshathly** – Specialist, SQUH, Al Khodh, Oman

This conference delivered exceptional scientific content with practical clinical relevance. The sessions were interactive, allowing knowledge exchange with leaders in the field. It was a highly professional experience that will benefit both my practice and ongoing research.

---

**Dr. Naseem Fahad** – Consultant Pediatric Oncology, Ministry of Health, Janabiya, Bahrain

The congress was remarkable in its organization and content quality. Sessions were comprehensive, covering recent innovations and treatment guidelines. The interactive format enhanced engagement, providing a deeper understanding of pediatric BMT practices. I highly recommend it to fellow professionals.

---

**Dr. Abdul Rahman Alsaad** – Pediatrician, Jordan Hospital, Amman, Jordan

The conference provided an excellent overview of pediatric BMT and emerging therapies. The session on Gene Therapy for SCID: Updates from the Ongoing RAG1 Trial offered valuable insights, and the event was impeccably organized. An enriching and practical learning experience.

**Dr. Hassan Al-Trabolsi** – Consultant, King Faisal Specialist Hospital, Jeddah, KSA

This was an outstanding professional gathering that combined advanced scientific content with clinical applicability. The sessions were engaging, well-paced, and covered relevant topics in pediatric transplantation. Networking with international peers was highly beneficial. I highly value the knowledge gained from this event.

---

**Dr. Israa Mohamed** – Pediatrician, Seha Clinic, Al Ain, UAE

The conference offered high-quality presentations and interactive sessions that enhanced clinical understanding. It was well-structured, with practical case studies and discussions. Attending this event has enriched my knowledge in pediatric BMT therapies and gene therapy applications. An excellent professional experience.

---

**Dr. Raheeg Ali** – General Practitioner, Healthline Medical Center, Abu Dhabi, UAE

The sessions were insightful and addressed key challenges in pediatric BMT management. Presentations were interactive, and case discussions were particularly useful. The conference was highly informative, offering both knowledge and practical tools for improving patient care. A must-attend for healthcare professionals.
